BB43&43/H

HIGH SPEED SEMI-AUTOMATIC WIRE-O® BINDER

DURABILITY AND POWER FOR FINISHING PROFESSIONALS

BB43 - High speed Wire-O® binding

James Burn recognises the importance of reliability and cost-efficiency in professional finishing environments. Hence, our range of trade machines, developed and fine-tuned over several decades in the industry, present long-lasting punching and binding solutions for finishers all over the world.

The BB43 and BB43/H (hanger capabilities) are solid, efficient machines designed to produce perfectly bound books and calendars time and time again.

Combining a high rate of production with the versatility to accommodate sheet sizes from 5cm up to 43cm, these compact machines are capable of binding up to 1000 documents per hour (depending on operator skill and book format).

Each machine automatically binds hand fed pre-punched documents and is operated by an electric footswitch. Size, pitch and format changes can be achieved quickly due to easily accessible controls and tool areas.

BB43&43/H

FEATURES

- ◆ **Flexible** *Instant pitch change between 3:1 and 2:1. Skip binding facilities*
- ◆ **Ergonomic** *All tool changes and adjustments are made from the front. Features a large working surface*
- ◆ **Touch screen control** *Easy-to-use, logical control panel*
- ◆ **Space-saving** *The machine is accompanied by a free-standing spool stand for easy manoeuvrability*
- ◆ **Calendar binding** *The BB43/H features an integral hanger feed for standard and Euroslot hangers. 'Skip' binding is also possible with the BB43/H*
- ◆ **Slugtype cutter** *Removes 2mm of the broad loop.*

User-friendly control

SPECIFICATIONS

Wire-O® Sizes	3:1 pitch – 3/16" to 9/16" (sizes 3 to 9) 2:1 pitch – 5/8" to 1" (sizes 10 to 16)
Binding Length	3:1 pitch – maximum 51 loops (43cm) minimum 6 loops (5cm) 2:1 pitch – maximum 34 loops (43cm) minimum 4 loops (5cm)
Book thickness	All models 3mm (7/16") up to 22mm (7/8")
Output	Practical speed is 600/1200 per hour dependent on product, format and the operator's skill
Hanger Lengths	76mm up to 400mm
Hanger Styles	2, 3 and 4 Standard or Euroslot
Machine Size	1450mm wide x 1105mm deep x 1300mm high
Net Weight	650kg
Spool unwind unit	500mm wide x 700mm deep x 1205mm high (65kg net) (Standard or Jumbo Wire-O®)
Air Input	Ring main or dedicated compressor (not supplied)
Compressed Air	5.52 bar (80psi) pressure
Air Consumption	1.5 cu/ft min (410 l/min)
Electrical	500 watts
Mains supply	220/250v, 115/200v (50/60Hz)
